

# CBD and South East Light Rail

## NOTICE TO RESIDENTS AND BUSINESSES

January 2014

The CBD and South East Light Rail (CSELR) is a \$1.6 billion infrastructure project that will transform Sydney. It will provide a fast, reliable public transport service from Circular Quay to Kingsford and Randwick via Surry Hills. The light rail project is part of an integrated transport solution that will improve public transport in the south east, manage future growth, plan for urban renewal and reduce congestion in the CBD.

### Services investigation work – 4 February to 14 March 2014 (night time work)

We will be carrying out service investigation works to verify the location of existing buried utilities such as water, telecommunications, gas and electricity.

Rock and soil samples will also be tested to investigate the geology of the area.

The works will occur **on Anzac Parade (from Dacey Avenue / Alison Road intersection at Moore Park) through Kensington and Kingsford and over the 'Nine Ways' roundabout to Sturt Street.**

The investigations will assist in the proposed design and construction planning for the project.

**This work will be undertaken at night between 7pm and 5am over a six-week period:**

- Tuesday 4 February to Friday 7 February
- Sunday 9 February to Friday 14 February
- Sunday 16 February to Friday 21 February
- Sunday 23 February to Friday 28 February
- Sunday 2 March to Friday 7 March
- Sunday 9 March to Friday 14 March

No day time works will take place during these times.

The work crew will survey the utilities overnight then restore the area for day time traffic and pedestrian movements.

The work will involve removing sections of road, pavement and soft ground to test rock and soil samples and verify the exact location of buried utilities along the alignment.

Equipment used to undertake this work includes saw cutters, excavators, bobcats, potholing trucks, tip trucks with trailers, plate compactors, generators and flood lights. Utility vehicles or stand alone rigs will also be used for geotechnical works.

Some of the works will be noisy and you will notice changes to traffic conditions while the work is being undertaken. All work will be done under traffic management and all roads will be reopened by 5am.

Every effort will be made to minimise the impact to residents and businesses while work is undertaken.

We apologise for any disruption and inconvenience caused during this important work.

If you have any urgent enquiries or complaints during these works, please contact the 24-hour Construction Response Line on 1800 775 465.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on 131 450 and ask them to call Transport Projects Division on (02) 9200 0200. The interpreter will then assist you with translation.
