### New toilets at Coogee Beach:

Following ongoing concern that the existing toilets on Goldstein Reserve, near the Arden Street bus stop, are not enough to cater for Coogee Beach crowds, \$4.3 million has been allocated to increase the number of public toilets at Coogee Beach, by constructing new men's, women's and accessible toilets, showers and change rooms on the lower beach promenade where the Lifeguard office is located. There will be further design work and extensive community consultation on the proposal.

### Coogee Bay Road improvements:

The Coogee Bay town centre, from Arden Street to Mount Street, will benefit from a \$3 million upgrade, including new footpaths and street furniture, and the undergrounding of power lines (which was budgeted for last financial year). Council will be writing to all Coogee residents, ratepayers and businesses seeking feedback on the upgrade. We are also exploring options to maintain parking and traffic lanes, but slightly increase footpath widths to create a better experience for pedestrians.
